

What is sustainable connectivity?

Ville Varjola
Adviser on Economic Affairs
European External Action Service
Asia and Pacific

1. What is connectivity?
2. Concept of sustainable connectivity
3. EU internal market: regulating connectivity
4. Future of sustainable connectivity
5. Partnerships for sustainable connectivity
6. Financing sustainable connectivity
7. Human dimension of connectivity
8. The EU strategy on connecting Europe and Asia

Connectivity =
Transport + Energy + Digital
Physical connections + 'software'
People to People

Sustainable Connectivity =
Sustainability
(environmental, economic, fiscal, social) +
Level playing field

EU internal market

An example of sustainable connectivity
